

IN THE CLAIMS:

Please cancel claim 3.

Please amend claims 2 and 4 as follows:

 2. (Once Amended) A vehicle lift comprising:
a plurality of vehicle lifting runways;
a volumetric operating system including an operating fluid supply, a pair of main cylinders and a pair of secondary cylinders that cooperate to move the vehicle lifting runways, wherein
the pair of main cylinders receive operating fluid directly from the operating fluid supply, and
each of the secondary cylinders receive operating fluid indirectly from an operating fluid outlet of a respective one of the main cylinders, and wherein each runway includes one of said main cylinders and one of said secondary cylinders.

 4. (Once Amended) A vehicle lift as claimed in claim 2 wherein the operating fluid outlet of each main cylinder which is associated with one of the runways supplies a secondary cylinder which is associated with the other runway.

REMARKS

I. Objection to Oath/Declaration

The Examiner indicated that the Applicant has not complied with the requirements of 37 C.F.R. § 1.63(c), since the oath, declaration or application data sheet does not acknowledge the filing of any foreign application. A new application data sheet is attached hereto which references the Italian application.

II. Objection to Specification Amendments

The Examiner stated that the amendments regarding the insertion of the headings "Summary of the Invention", "Brief Description of The Drawings" and "Detailed Description" has not been entered because there was a lack of precise instructions. Included herewith are additional proposed specification corrections whose instructions will be now fully and precisely understood. Accordingly, entry thereof is respectfully requested.
